# Nexus Connect Broadens Your Horizon

You're in your twenties and you have the world at your feet. With one click, you travel enormous distances in no time at all. A sea of information is at your fingertips 24 hours a day. But the high speed and information overload of digital culture have their downside. Where can you still find depth, reflection and *Bildung*? Where can you transcend the issues of the day in order to reflect on what really matters in life, in society, in the world?

Nexus Connect offers you that space. Nexus Connect is there for young people under 31 who feel at home in the information society, but who would also like to consider that society from a broader perspective; who are firmly rooted in the present, but who don't forget the past and think about the future; who use Twitter and Facebook, but who also like to read books and enter into discussions. Nexus Connect is there for young people who are not afraid to make an effort at gaining new insights into a new era.

Are you someone who wants more? Are you interested in meeting like-minded people or entering into conversation with older generations? Do the activities, publications and philosophy of the Nexus Institute appeal to you? And are you no older than 30? Become a member of Nexus Connect. As a member of Connect, you are a special guest at the activities of the Nexus Institute and you are invited to meetings and receptions organized especially for you.
